

# DISTRIBUTION

## CUSTOM DISTRIBUTION SOLUTIONS

No two distribution needs are identical. Our approach allows you to be a true partner in defining the exact service or full suite of services you need to create a game-changing solution. This is a collaborative and transparent supply chain solution at its best. We work to define your needs and design a long-term solution that is both built to last and dynamic — adjusting to your changing business.

- Full-service multi-category or limited category programs
- Complete distribution and warehousing for a wide range of temperature requirements
- In-house Logistics Technology expertise for system integration and custom applications
- Inbound/outbound freight brokerage capability
