

TEMPERATURE- CONTROLLED WAREHOUSING

BURRIS SCALABLE WAREHOUSING SOLUTIONS

We understand that one size does not fit all, which is why we have warehouse locations across the nation that allow you to scale your business at your own pace with storage solutions and high-touch case selection. We have also responded to national trends helping e-commerce companies leverage our assets and expertise for geographically comprehensive direct-to-consumer (D2C) fulfillment needs. Our growing network supports reliable service and premier frozen/refrigerated warehouse solutions so you can focus on what you do best.

- Storage in multiple temperature-controlled environments (-20 to 48)
- Capability for food products, dry goods, biologics, and pharmaceuticals
- Direct-to-consumer/E-commerce fulfillment — kit assembly and shipping
- Product tempering by customer or product specification
- Case selection, order assembly, and product kitting
- Warehouse management system and online reporting

ONE PARTNER. **MANY SOLUTIONS.**[®]
